
Beer Works believes in delivering our email newsletters only to the individuals that request them. We have taken great pains to ensure that you, our VIPs have full control over whether you receive our notifications or not. On each email there is a link to unsubscribe as well as change your information as you desire. We send confirmation requests when you initially subscribe in order to verify that you actually want to hear from us.

While we applaud the anti-spam industry for removing the plethora of unwanted email from many of our mailboxes, from time to time, some legitimate email publications are mistaken as unwanted.

Sometimes, this results in our mailings bouncing back, with requests for us to respond to challenge/response messages to prevent future filtering. However, due to the size of our list, it's nearly impossible for us handle the volume of such requests.

To that end, please realize that we want our readers to always anticipate and enjoy the valuable information that our publication delivers.

If you currently use an anti-spam program or service, we ask that you take just a minute or two to add our publication to your "safe" or permitted email sender list. This usually involves simply adding our sending address (From :) to your whitelist, safe list, or list of privileged senders. This is commonly known as whitelisting a publication.

Below is a list of many of the most popular email client or filtering solutions. **Choose your email client type or filtering solution and follow the instructions to whitelist Beer Works as a safe sender.**

AOL

- Go to keyword: Mail Controls.
- Select the screen name we're sending your **Beer Works VIP Club** to.
- Click Customize Mail Controls For This Screen Name.

Version 9.0:

- Open your latest **Beer Works VIP Club** e-mail.
- Click the Add Address button (on the right) to add to your "People I Know" list.

Alternatively, you can just send an e-mail to: **Myvip@beerworks.net**, and that will add us to your "People I Know" list automatically. To do this:

- Open your latest **Beer Works VIP Club** e-mail.
- Click the Reply button (it's in the top right corner).
- A new email window opens with the wrong address in the "Send To" box.
- Replace the address in the Send To box with: **Myvip@beerworks.net**
- Click Send Now (in the top right corner).
- Even if the e-mail you send doesn't get through to us, the act of sending it does the job of putting us into your "People I Know" list.

CleanMyMailbox:

If **Beer Works VIP Club** is filtered, from the spambox, click on the white "W" icon on the left column of the mailing. When the pop-up window comes up, simply click the Add to Whitelist button.
